

HERG-ÖT

design Luigi Brembilla

Straight, compact, thick steel fins stress the squareness of the wall and create an essential heated towel rail full of character. HERG-ÖT is reminiscent of the iconic

form of a ladder and can be fitted either perpendicular to the wall or at a slight angle. The parallel tubes (crosswise and

flat) provide comfort and warm to the bathroom, at the same time acting as a casual hook for clothes, towelling robes and towels.
