

# PIT

design Pietro Facheris

Designed for BREM by Pietro Facheris, PIT is perfect to fit even the tightest space of the bathroom. This towel rail has an elegant minimalist design, with three vertical radiant

rectangles, overlapping each other. Space is optimized by multiplying the heat output and rectangular sections create three different points of support for towels.

PIT is available in two heights and two widths, the narrower is only 32 cm, in white painted steel as standard or customized on request in one of the BREM colours list.
