TRIO Wall Sconce – clear or RGB LED light

During the day, the TRIO LT Wall sconce is a decorative fixture.
At night, it is illuminated with 600 LED lights.
Several ways to produce the light and the desired ambiance:
The TRIO can be set to automatically change the intensity of the light frame by simply using the infrared remote control.
The remote control turns on and off the fixture and increases or reduces the light intensity in the clear or color version. In the color version, it is the color change by going through the RGB color cycle and the intensity variation, see picture of remote on the following page.
For the same output, the TRIO product saves 75% Energy compared to a standard lighting fixture.

Weight : 26 lbs / 12 kg

Height : 59-7/8" / 152 cm

Wide : 41" / 104 cm

Frame : Black or white color

Power supply 120V to 240 V. UL Listed transformer included.

Energy consumption : 100 W maxi.

Clear LEDs (Warm 3000K* or neutral 4000K)
• White, subtle and minimalist (warm or neutral white)
Lighting output : 7500 Lumens
• White + RGB color LEDs, versatile with colors
Lighting output : 3000 Lumens

TRIO Wall Sconce – clear or RGB LED light

Models available:

Model	Frame color	LED Color	Size	Watts (consumption)	Lumens (output)
TRIO–W-3000k-120V-BF	Black	Warm white	59-7/8" X 41"	0-100W	0-7500
TRIO–W-3000k-120V-WF	White	Warm white	59-7/8" X 41"	0-100W	0-7500
TRIO–W-4000k-120V-BF	Black	Neutral white	59-7/8" X 41"	0-100W	0-7500
TRIO–W-4000k-120V-WF	White	Neutral white	59-7/8" X 41"	0-100W	0-7500
TRIO–RGB-120V-BF	Black	White+ RGB	59-7/8" X 41"	0-100W	3000
TRIO–RGB-120V-WF	White	White+ RGB	59-7/8" X 41"	0-100W	3000

UL Listed transformer included.   Remote control included.

UL Recognized Component Mark

These are Marks consumers rarely see because they are specifically used on component parts
that are part of a larger product or system. These components may have restrictions on their performance
or may be incomplete in construction. The component recognition marking is found on a wide range of
products, including some switches, power supplies, printed wiring boards, some kinds of industrial
control equipment and thousands of other products.
Just as with the UL Listing and Classified Marks, there are three variations of UL's Recognized Component
Mark: one for the United States only, one for Canada only and one for both the United States and Canada.
The C-UR Mark is applied to components only used in the Canadian market. Components with this type
of Mark have been evaluated to Canadian standards. The optional C-UL-US Component Recognition Mark
indicates compliance with both Canadian and U.S. requirements.

Selecting the TRIO product is electing to reduce the energy consumption of your home and our planet.
CINIER TRIO LT LED products combine a high quality LED to a unique lighting design.
